Created Regular Expressions Tutorial for Learnable.com
Conducted Online Expert Session
Current projects: BusinessSpew, F1 Top Ten, Riot'D, PrimpinDogs.com

Team Leader on Sitepoint Forums

Recent Professional Experience:

LEIDOS (FORMERLY SAIC)..**PRESENT**
JMPS Software Test Engineer SEIC – Joint Mission Planning System (US Air Force Contract)

As one of the small team of Integration Test Engineers, Thom's special skills are employed to develop and maintain specialized software tools that aid in the Integration and Verification Testing process.
Activities include;

- Data Analysis and UML Modeling
- Developing/Modifying/Creating Automated Tests (with HP Quick Test Pro)
- Designing and Developing specialized software tools (multi-protocol)
- Manual Software Testing and Validation in DoD Classified environment
- Careful data collection and reporting of test results the US Air Force Office of the Secretary of Defense

Professional Experience (continued):

SAIC..**2005**

JMPS Developer Training SEIC; Joint Mission Planning System

(DoD Secret Clearance)

US Air Force Contract

Hired as a Web-based Tools Developer, Thom's special people skills were recognized and applied to the Developer Support Team where he conducted classes for US-based software developers from US DoD contractors working on the Joint Mission Planning System.

The success of the program led to the creation of series of curricula for Foreign Military Sales (FMS)

Specific activities include:

- Development of Curricula using structured practices (CLO, TLO, TO)
- Design and Build ALL training materials to include Slide-Presentations, Handouts supporting documentation (physical and electronic)
- Develop and construct "hands-on" labs
- Deliver JMPS Developer Training to FMS clients and US clients as needed

SAIC

IT & Systems Specialist

contracted with NCS (National Communications System), a division of DHS (Department of Homeland Security)..**2003-2004**

With DoD Secret Clearance, provided high-level Technical Assistance functions for the NCS. Managed and maintained NCS systems, including Government Emergency Telecommunications Service (GETS), Wireless Priority Service (WPS), and Telecommunications Service Priority (TSP).

- Developed several database-driven software tools to enhance NCS Operations
- Assisted with enhancements to existing web portal(s)
- Provided 'process improvement' on a daily basis

LUCENT TECHNOLOGIES...**1998 – 2003**

Product Specialist (NMS/EMS) (2001 – 2002)

Senior Systems Engineer (1998 – 2001)

Traveled internationally to customer sites as the manufacturer's representative of Lucent products, and consistently closed multi-million dollar contracts. Solidified the Network Management System for Lucent's Broadband Access Product Group. Earned a reputation as a subject matter expert within the Systems Engineering group.

- Designed several internal software utilities, including "HONEI", an in-house software tool adopted as a standard tool for configuration and troubleshooting of the Stinger DSL product, and eventually enhanced into a customer product.
- Developed a custom GUI configuration tool used as the de-facto 'quick' configuration software for the MRT device (member of Stinger product family).
- Provided Technical Sales Support to the Emerging Service Provider market.
- Developed several key software applications to assist Lucent sales teams. Played a crucial role in helping Lucent win customer contracts by creating specialized software applications to assist with configuring and maintaining products.
